## Chapter Members, Friends and Family

Yes it's that time of year again! December is upon us, and we're looking forward to a period of rest and relaxation.

We are like a bunch of aeroplanes : in January we are all cleared for take-off, taking to the skies of life. Some of us climb quickly to cruising altitude, some of us fly low for a while, some of us experience a few bumps through some air-pockets and some of us have to go through a cloud-bank first, but in the end we all reach our own unique speed and altitude to take us through the year.

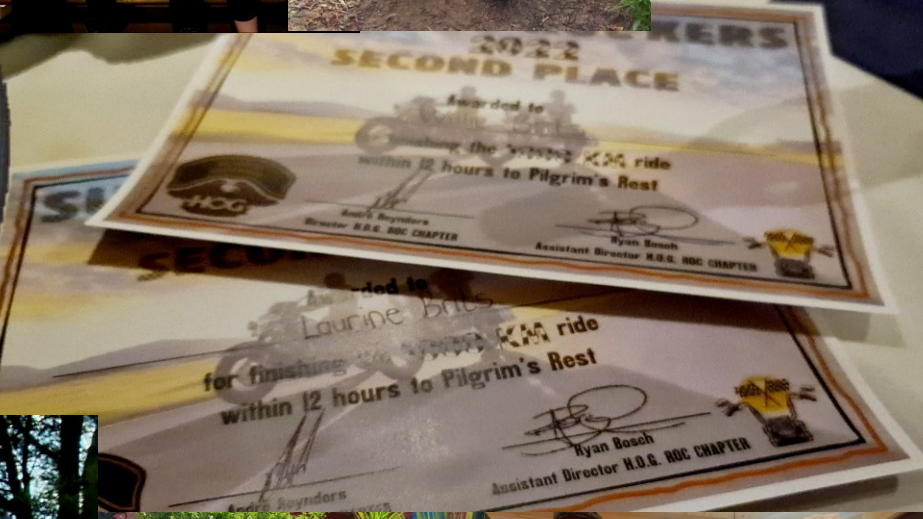

Come December, after a year long flight, we start hearing Air Traffic Control bringing us in for landing. We see the runway in front of us, we see the ground crew getting ready to receive us.

Tired with empty tanks and flickering warning lights for maintenance and repairs.

I bid you all a Safe Landing, and may all your Flickering Warning Lights be attended to 🛖 🛖

I also wish you a Merry Christmas and a very Happy 2023, with lots of Petrol Money for Sundays...
